Beginnings

The reason...

- The reason for setting up the company
 - ☞ **Unemployment** (Deaf olympic-after 10 months did not get a salary,she left this job)
 - ☞
 - to be INDEPENDENT

Beginnings

And various situations..

- Problem-
Communication with
heard people –on the
offices the basic capital
- At the beginning-The
good **inspiration,**
learning during the
nights
- To be **STRONG** and
PATIENT

The best experience is
reality

Beginnings

Plan of company-importance? or it is the happiness

- Plan is unusefull when the **reality is different**. You sometimes do not go with the plan.
 - Nadácia Pontis- offer her the course in Tatra's where she learnt :how to begin to be in business and all things about it , that very helped her
 - The bad experiences after the course!(the offices do not accepted the certificate)

The competition

- ◇ New ideas in the company in order to increasing of quality and to be different than others (life music, abbatoirs)
- ◇ The competition : SMOKING -this is the cafe where you **must not smoke** inside
- ◇ **New & new ideas are very important.**

The competition..

The situations with which the young entrepreneur can solve..

- You must face that you don't have to have enough money for the opening a company
- Your company can be closed because of low demand
- Big competition
- That your money which you put/deposit into the opening , do not come back very quickly but it can take a few time

- *Success..*

Important characteristics of entrepreneur

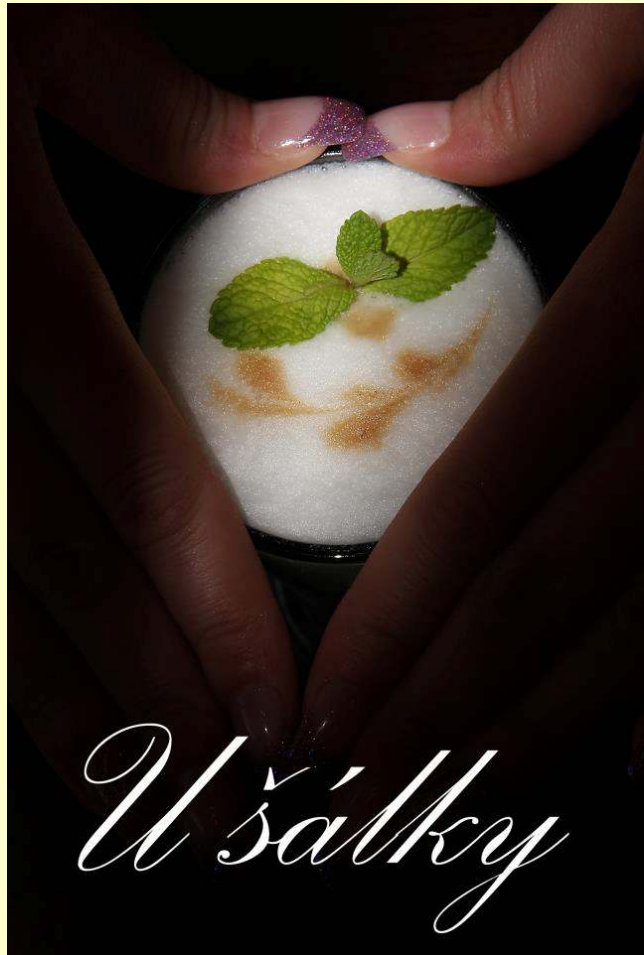

- ✦ *Responsible attitude*
- ✦ *Do not expect with quickly
make of money*
- ✦ *Be **strong**, **patient***
- ✦ *And the big **courage** in
her case*

Success..

- **Biggest succes is COURAGE !**
- ↳ Because you haven't got always the surety if you will understand to every customer and his order. So **everytime it is a challenge** for the waitress.

The next plans

- *Progressing and offering of pleasant surrounding for customers. The place where they can go relax, spend the time with their friends with some good drink.*

Thank You!
